м.Одеса, вул. Теніста, 8. тел.(048) 737-37-70

*Prague, Czech Republic.*

*Mr. Serergyn Romaniv*

*Surgical department*

*Center of Reconstructive and*

*Restorative Medicine "University Clinic"*

*ONMendU , Odesa, Ukraine*

*Letter of request*

*Currently, more than 40 soldiers of the Armed Forces of Ukraine have been operated on and are being treated in our surgical department. About 70-80% of operative interventions fall on soldiers. The most common are gunshot and shrapnel wounds, which require active wound healing, but currently we do not have enough devices for active aspiration.*

*We are asking you to provide us with vacuum therapy devices in the amount of 5-8 pieces*

*Best regards,  
head of the surgical department,  
Ph.D . Maksimovskiy N.E.*
